

Every day after school Chelsea and her older brother, Leo, would go to the park to look for bugs. Chelsea loved to use her Ultimate Adventure Kit for Young Explorers. It had a bug catcher, a magnifying glass, a notebook, a book about bugs, a hat with special netting around the rim and even a flashlight. It was awesome!

One day while Chelsea was looking through her backpack for her magnifying glass, Agnes was sitting on a nearby bench wondering what to do. She had found the magnifying glass the day before and was hoping that Chelsea would come back to the park again so that she could give it back to her. She was afraid though, because she didn't want to scare Chelsea or Leo.

Several days had gone by and they never saw the homeless lady at the park. Chelsea worried that she wouldn't see her again. She and Leo wanted to thank her for finding the Adventure Kit. So they went back to the park with their mom to look for the lady. They looked everywhere, but they still couldn't find her.
