

Adopting a pet

It's a furry animal, with big shiny eyes, very long ears, and a nose that never stops twitching. Do you know what kind of pet Paula's family has adopted?

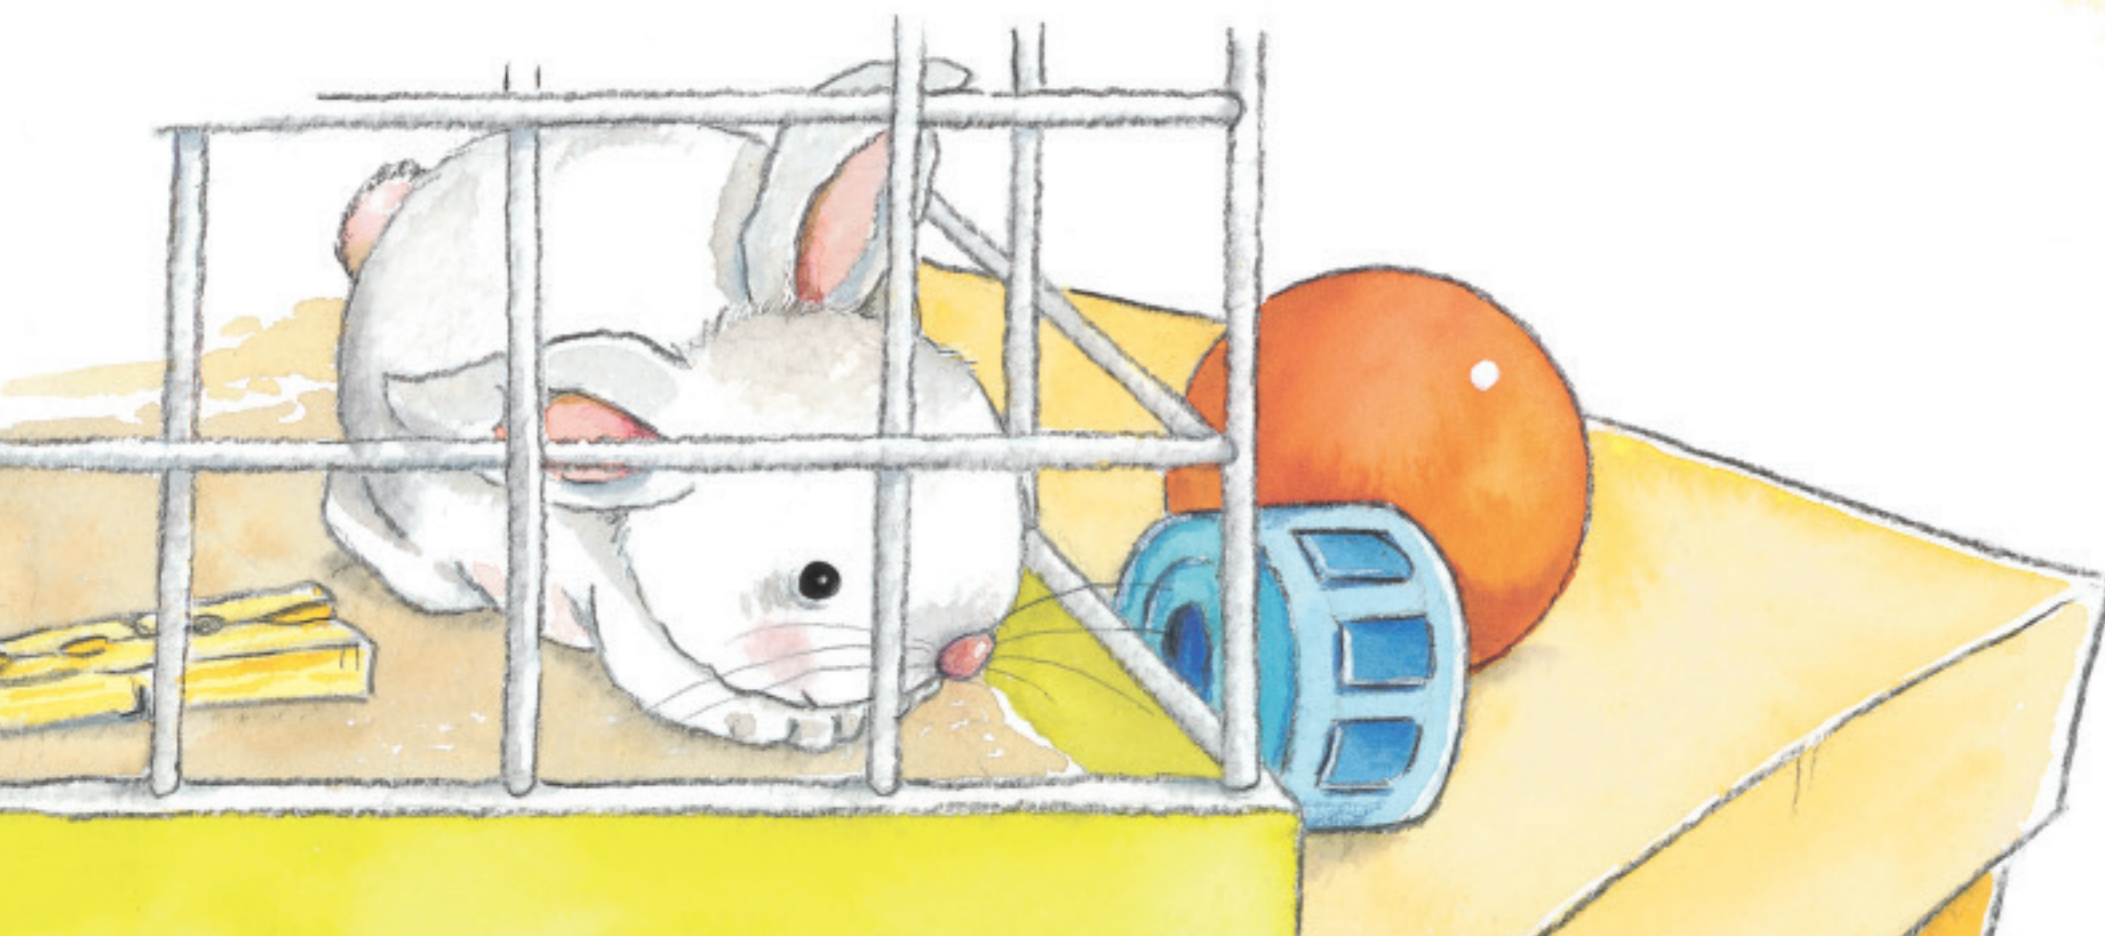

A little house bunny! Paula is so happy she can't stop jumping up and down with excitement. Now all she has to do is choose a name for their pet. Which name would you choose?

First day at home

Lily is very shy and gets frightened easily at first. As soon as they put her in her cage, she rushes to a corner. Paula tries to imagine how Lily feels surrounded by a lot of humans she does not know. They'd better leave her alone so she can get used to her new cage.

Her own things
