

I'M NEVER ALONE

No matter what I do or where I go, I'm never alone. I can't go anywhere without it. It comes with me to school, it's always with me at home, and it even takes me to the bathroom. I don't know what I would ever do without my wheelchair!

I NEED A WHEELCHAIR

Most people use their legs to get around. Since my legs don't work well, I need to use a wheelchair. Wheelchairs come in different sizes and styles. Some wheelchairs move by a flick of the switch, whereas others, like mine, move when I push the wheels forward or backward with my hands, or when I get pushed by somebody else.

MY WHEELCHAIR IS SPECIAL

I've got an awesome wheelchair, and I designed it all by myself. Blue is my favorite color; so both chair and wheels are bright blue. I even have some cool highlights on my wheels that sparkle when I move. On the back of my chair I have a special pouch to carry my schoolbooks and other stuff. I even have an umbrella that attaches to my chair when it rains.
