

Did you know that the circle of life starts
at the moment someone is born and ends
the moment someone dies?

Your pet also is born, lives, and dies. Life has
a beginning and an end.

My pet's name was Jake. Jake was the greatest dog in the whole world, and he was my best friend.

Do you have a pet now, or did you have one before? What is or was its name?

I remember the first day I met Jake. He came running through our front door wearing a great big red bow around his neck. He ran straight toward me. I remember how excited he was when I picked him up to give him a hug. He was so wiggly, and his tail kept wagging!
