

We didn't know anything was wrong until all of a sudden, we heard a big BANG coming from the oven. My cake exploded! There was chocolate cake everywhere except for in the pan.

That's when mom turned to me and said, "Sometimes you just have to slow down and take your time or else everything can go wrong!"

Yep! You guess it! When we got back to the class after recess, Tibbles's cage door was wide open and Tibbles was gone! Some of the kids cried, and others started looking around the classroom calling "Tibbles, come here Tibbles." But we couldn't find Tibbles anywhere!

Everybody is in a hurry once in a while,
but try to remember that if you forget
to slow down and take your time,
everything can go wrong!
